Place the chopped chocolate in a heatproof bowl and pour boiling water over the chocolate to melt, then stir in the cocoa and set aside to cool for a few minutes.

Mix the butter and sugar until it's fluffy, add the chocolate and cocoa mixture and mix well.

Add eggs, once at a time, and mix well after each addition.

Gradually add the flour mixture into the wet ingredients and mix well.

Spread the batter into the prepared pan and tap gently a few times on the counter to make sure any air bubbles are gone.

Bake for 60-70 minutes in the preheated 325° oven. It is done when a toothpick or cake tester inserted in the center of the cake comes out clean -- don't over bake or it will be dry.

Let it cool a few minutes in the pan, and then turn it out on a cooling rack to cool completely.

Make the chocolate ganache while the cake is cooling.

Heat the heavy whipping cream until just steaming and then add the chocolate and whisk until the chocolate is melted and it is a smooth and glossy mixture. Spread it over the cake.
